

# Assignment 1 :-

**Pranay Jivrani**

Myself Pranay Jivrani, I'm currently pursuing computer engineering from Charotar University of Science and Technology.

I completed my Higher Secondary Education from Navrachna Vidyani Vidyalaya.

After B.Tech, I'm probably gonna be an entrepreneur as I find life very monotonous and entrepreneurship is something very challenging and where I can live my life on my own terms.

I love discovering music and I'm found of psychedelic art.

"Music gives a soul to the universe, wings to the mind, flight to the imagination, and life to everything." – Plato

Music affects our emotions. When we listen to sad songs, we tend to feel a decline in mood. When we listen to happy songs, we feel happier. Upbeat songs with energetic riffs and fast-paced rhythms (such as those we hear at sporting events) tend to make us excited and pumped up. Music is more than just sound, isn't it? It's movement, healing, connection, memory. It affects us in ways we might never fully comprehend. Maybe your favorite song has something more to say. What an amazing gift God has given us through music!

## Assignment 2 :-

### Favorite Artist

Abel Makkonen Tesfaye (born February 16, 1990), known professionally as The Weeknd, is a Canadian singer, songwriter, actor and record producer. In 2010, he anonymously uploaded several songs to YouTube under the name "The Weeknd" and released the mixtapes House of Balloons, Thursday, and Echoes of Silence in 2011 which quickly gained him a following and recognition from several mainstream publications due to his dark wave-style of R&B and the mystique surrounding his identity.

Aubrey Drake Graham<sup>[10]</sup> (born October 24, 1986) is a Canadian rapper, singer, songwriter, producer, actor, and businessman.<sup>[11]</sup> Drake initially gained recognition as an actor on the teen drama television series Degrassi: The Next Generation in the 2000s; intent on pursuing a career in music, he left the series in 2007 after releasing his debut mixtape Room for Improvement. He released two further independent projects, Comeback Season and So Far Gone, before signing to Young Money Entertainment in June 2009.

Jacques Berman Webster II<sup>[4]</sup> (born April 30, 1989), known professionally as Travis Scott (formerly stylized as Travi\$ Scott), is an American rapper, singer, songwriter, and record producer. In 2006, he signed with Epic Records. In November of the same year, he released his debut mixtape, Ology. In 2007, he signed with West's GOOD Music, as part of its promotion. In 2013, Scott signed a record deal with Epic Records, his fusion hip-hop.

# Assignment 3 :-

Myself Pranay Jivrani, I'm currently pursuing computer engineering. I completed my Higher Secondary Education from Navrachna. After B.Tech, I'm probably gonna be an entrepreneur as I find life very monotonous and entrepreneurship is something very challenging and where I can live my life on my own terms. I love discovering music and I'm fond of psychedelic art.

"Music gives a soul to the universe, wings to the mind, flight to the imagination, and life to everything." – Plato

Music affects our emotions. When we listen to sad songs, we tend to feel a decline in mood. When we listen to happy songs, we feel happier. Upbeat songs with energetic riffs and fast-paced rhythms (such as those we hear at sporting events) tend to make us excited and pumped up. Music is more than just sound, isn't it? It's movement, healing, connection, memory. It affects us in ways we might never fully comprehend. Maybe your favorite song has something more to say. # Assignment 6 :-

# Zen Garden

A demonstration of what can be accomplished through CSS-based design. Select any style sheet from the list to load it into this page.

Download the example [html file](#) and [css file](#)

## Participation

Strong visual design has always been our focus. You are modifying this page, so strong CSS skills are necessary too, but the example files are commented well enough that even CSS novices can use them as starting points. Please see the [CSS Resource Guide](#) for advanced tutorials and tips on working with CSS.

You may modify the style sheet in any way you wish, but not the HTML. This may seem daunting at first if you've never worked this way before, but follow the linked links to learn more, and use the example files as a guide.

Download the sample [HTML](#) and [CSS](#) to work on a copy locally. Once you have completed your masterpiece (and please, don't submit half-finished work) upload your CSS file to a web server under your control. [Send us a link](#) to an archive of that file and all associated assets, and if we choose to use it we will download it and place it on our server.

## Benefits

Why participate? For recognition, inspiration, and a resource we can all refer to showing people how amazing CSS really can be. This serves as equal parts inspiration for those working on the web today, learning tool for those who will be tomorrow, and gallery of future techniques we can all look forward to.

## Requirements

Where possible, we would like to see mostly CSS 1 & 2 usage. CSS 1 & 2 should be limited to widely supported elements only, or strong fallbacks should be provided. The CSS Zen Garden is about functional, practical CSS and not the latest bleeding-edge tricks viewable by 2% of the browsing public. The only real requirement we have is that your CSS releases.

Luckily, designing this way shows how well various browsers have implemented CSS by now. When sticking to the guidelines you should see fairly consistent results across most modern browsers. Due to the sheer

### The Beauty of CSS Design

**select a design:**

Mid Century Modern by Andrew Lohman

Garmes by Dan Mail

Steel by Steffen Knoeller

Apothecary by Trent Walton

Screen Filler by Elliot Jay Stocks

Fountain Kiss by Jeremy Carlson

A Robot Named Jimmy by meitmedia

Verde Moderna by Dave Shea
